## RED CROSS QUOTA BUT HALF RAISED AND ROLL CALL CLOSING TODAY

Whole Blocks of Houses Without the Emblem of  
Mercy in the Windows—A Year Ago Today  
Nothing Was Too Good For the Soldier.

Armistice Day, the last day of the Red Cross Roll Call Campaign, and only about one half of Kingston's membership quota signed up!

Whole blocks without a Red Cross card displayed in any of the windows!

Men of the American Legion who are giving their time to the cause, because they know from experience what the Red Cross means, flatly turned down or diplomatically Red to!

A year ago today we were parading and shouting in honor of the victory won by these same men and loudly proclaiming that nothing was too good for them.

Today, when they ask for a dollar contribution to an organization that helped them to win the war we do not respond.

Truly, "The tumult and the shouting dies—  
The captains and the kings depart."  
"Lord, God of Hosts, be with us yet—  
Lest we forget, lest we forget."

Reports presented at the meeting of Red Cross workers Monday evening were as follows:

Wards	Members	Cash
Ward 1	99	\$132.00

Alderman-at-Large Samuel Watts presided in the absence of Chairman Mahar, who is ill as a result of work and exposure during the campaign.

Reports from county towns indicated much better success than in the city. Shawangunk has its quota. Ellenville is close to its quota. Saugerties has its quota of contributions and a large membership.

Major Brown, who did Red Cross work in the navy, was the speaker of the evening. He defined the Red Cross as an organization to meet emergencies, to give relief and to do nursing. Originally all this was in a military sense, but it has expanded along other lines as an organization to meet the emergency of any disaster, fire, flood, earthquake, pestilence or wreck. We are shocked that 45,000 of our men were killed in battle, but we should also be shocked that in the same time 450,000 children under five years of age died from disease that was mainly preventable, that 10,000,000 persons are suffering from tuberculosis, a preventable disease.

Mayor Canfield made a stirring appeal to the workers to make a successful finish of the campaign. Kingston, he said, has a reputation for doing more in the last two days of a campaign than in the first two weeks.

## SOLDIERS' BODIES TO BE RETURNED

Where Relatives Desire It, Says Secretary Baker in Armistice Day Tribute—Beautiful Cometeries to Be Erected in Place of Those Who Remain in France.

By Newton D. Baker, Secretary of War.

By Telegram to The Freeman.

Washington, Nov. 11.—The great fighting machine which a year ago today had amazed its associates and its enemies by completing the gruelling campaign of the Argonne immediately after striking the swift blow in the Meuse area and, immediately before posing itself for another and even farther advance to the southeast, has been contracted again to a modest fraction of its former size.

Of the four million men or more, which last November constituted the strength of our army, scarcely a quarter of one million remain. The record of transporting two million soldiers to Europe in the last year of hostilities has been duplicated by returning more than that number in the year since hostilities ceased.

The fleets of commercial vessels, gathered from all the quarters of the earth and concentrated in the Atlantic shipping lanes, have gone back again to their former and far-seattered owners. The deadweight tons redelivered by the war department now amount to four million, leaving scarcely more than 350,000 tons under army control.

The abrupt termination of fighting left us many thousands of contracts in force. Of these, more than 27,000 were immediately suspended, having a value of \$3,900,000,000. Of these, 22,378—more than 80 per cent—have been liquidated.

During the latter half of the past twelve months, the army has disposed of vast quantities of surplus supplies. The sales of material abroad, made mainly to France, represent nearly a half billion of dollars. Those made in the United States have mounted now beyond six hundred millions of dollars.

But despite this reduction in our military personnel, despite the return of these millions from abroad, there are many, unhappily, who will always remain in the army and who will return, if they come at all, only as members of that great company whose tents are spread on fame's eternal camping ground. More than 77,000 graves have now been marked by the graves registration service. The bodies of those whose families desire it, will be returned to America.

The others will be gathered in centralized spots, which will be cared for and beautified so as to make them rest fitting places for the heroes who are there. In our observance of this and of all the coming anniversaries of the armistice, the spiritual ranks of those dead must be present to our vision. In the recollection of their effort we must plan the future.

## LEWIS AND GREEN RECALL COAL STRIKE ORDER AND ASK NEW CONFERENCE

### YUDENITCH STILL AFTER PETROGRAD

By Telegram to The Freeman.

London Nov. 11.—General Yudenitch has begun a new drive in the direction of Gatchina, the so-called southwestern gateway of Petrograd, according to a Central News dispatch from Helsingfors today.

The Bolshevik troops are making heavy bank attacks against General Yudenitch's army but the dispatch added that all had been beaten off. (Gatchina is 30 miles southwest of Petrograd.)

### WATER BOARD BOOST TAP RATE

Owing to the greatly increased cost, both in labor and material, the water department has been compelled to increase the charge for making connections to the street mains of \$3.

Word of the increase, which goes into effect December 1, has been sent to all the plumbers. The new schedule is as follows:

One-half inch tap, \$10; it was \$7.

Five-eighths inch tap, \$12; it was \$9.

Three-quarters inch tap, \$15; it was \$12.

### Judge Anderson Approves Text of Order—Was Decided on After Stormy Session of Men's Representatives in Which Radicals' Demand for Show- Down Was Finally Rejected.

By Telegram to The Freeman.

Indianapolis, Ind., Nov. 11.—The coal strike has been called off. With the approval of Judge A. B. Anderson in the United States district court of the text of the recall order submitted by the United Mine Workers, the cleanup of mines which began November 1 was officially ended. After declaring the cancellation of the strike summons is made in good faith, Henry Warrum, chief counsel for the miners' officials, read a statement to Daniel W. Sims, special district attorney, calling upon the operators and the government to get together with the miners to formulate a new wage scale.

The Recall Order.

The text of the recall order submitted to the court by the union follows:

"To the officers and members of the U. M. W. of A.:

"Dear Sirs and Brothers—In obedience to the mandate issued on November 8th by the United States district court, district of Indiana, Judge A. B. Anderson presiding, the undersigned hereby advise you that the order of October 15th directing a cessation of mining operations in the bituminous coal fields in our jurisdiction is withdrawn and cancelled.

"Fraternalists yours,

"WILLIAM GREEN, Secretary.

"JOHN L. LEWIS, Acting President."

After hearing the recall order read Judge Anderson said:

"This appears to be a good faith effort to comply with the order."

"That is what this is intended to be your honor," replied Henry Warrum, chief counsel for the miners.

To Be Mailed Today.

Warrum promised to have the recall order in the mails by six o'clock tonight and Judge Anderson replied that "any good faith effort will be all right."

After voting to recall the strike order at the end of an all night session, the miners leaders today submitted its recall summons to the court and on the heels of its approval, the miners counsel read its statement requesting immediate negotiations. The statement reads:

"The operators have repeatedly declared that they are ready to enter into negotiations with the miners if the strike order were withdrawn. The government has taken the position that in the vindication of its own supremacy the strike must be withdrawn before they would take any steps to compel the resumption of such negotiations. The issue was submitted to the court and in compliance with the court's ruling the strike order has been cancelled and withdrawn. It seems to me that good faith on the part of the operators requires them to meet the miners' representatives at once for the purpose of negotiating a settlement of the wage controversy and that good faith on the part of the government requires it to see that such a resumption of negotiations is had at once and concluded without delay."

100 Men Decided on Recall.

Indianapolis, Ind., Nov. 11.—Today is armistice day in the industrial United States. The coal strike will be called off.

After an all night session, a little handful of five score men, which in view of the government virtually held the industrial future of the country or even the destiny of the nation in its palm decided to make peace between labor and the government.

The eastern sky was brightening when officials of the United Mine Workers, after being in session since 12:24 yesterday, finally voted to rescind the strike order which caused hundreds of thousands of miners to abandon their work November 1, in compliance with the mandate issued in federal court here last Saturday.

The decision to obey the court order of Federal Judge A. B. Anderson was reached shortly after four o'clock, after seventeen hours of deliberation.

Radicals Fought Hard.

Stormy scenes were said to have accompanied the long session, but the conservatives finally won out. The miners had until noon today to reply to the federal court's mandate.

After adjournment had been taken until 2 o'clock this afternoon, John L. Lewis, acting president of the United Mine Workers of America, made the formal announcement of the decision.

"We are American citizens and we would not undertake to fight the government," declared Mr. Lewis to the assembled reporters.

"We have decided to comply with the court's mandate, but we shall do so under protest. That is all I can say now."

Mr. Lewis then hurried away with other officials of the union.

The officials of the union had conferred all day Monday on the numerous questions affecting not only the future working program of the 425,000 bituminous miners, but the industry of the nation.

A strike but losing fight was made.

## MARKHAM'S ARMISTICE DAY TRIBUTE TO AMERICAN DEAD IN FRANCE

(Copyright, 1919, by the International News Service).

New York, Nov. 11.—Elwin Markham, famous American poet, author of "The Man With the Hoe," today at the request of the International News Service, penned the following touching lines as a mark of honor on Armistice Day to the American dead in France.

(By Edwin Markham.)

"Our Dead Overseas."

They sleep; they took the chance  
In Italy, in Belgium, in France  
For us they gave their youth to its last breath—  
For us they plunged on into the gulf of death.

With high heroic heart  
They did their valiant part.  
They gave the grace and glory of their youth  
To lie in heaps uncouth.

They turned from these bright skies  
To lie with dust and silence on their eyes  
Yet they have wages that we know not of—  
Wages of honor and immortal love.

For they went down only to live again—  
In the eternal memory of men—  
To be warm pulse-beats in the greating soul  
That drives the blind world onward to her goal.

They are not dead; life's flag is never furled;  
They passed from world to world.  
Their bodies sleep, but in some nobler land  
Their spirits march under a new command.

New joys await them there;  
In hero heavens' warp in immortal air.  
Rejoice for them, rejoice;  
They made the noble choice.

How shall we honor their deed—  
How speak our praise of this immortal breed?  
Only by living nobly as they died—  
Tolling for truth denied.

Loyal to something bigger than we are—  
Something that swings the spirit to a star

## PRINCE OF WALES REACHES CAPITAL COAL RULES TO REMAIN IN FORCE

Warmly Welcomed by Vice-President and Populace—To Call at White House and Probably See President—Passed Through Kingston in Night.

By Telegram to The Freeman.

Washington, Nov. 11.—In a drizzling rain which did not in the least dampen the warmth of the welcome accorded him, the Prince of Wales arrived in the American capital shortly after noon today. He was heartily welcomed by Vice-President Marshall who, because of the president's illness, received the royal visitor on behalf of the American government.

Gathered at the Union Station to greet the prince when his special train rolled in were practically all the members of the cabinet, Viscount Grey, the British ambassador, General Pershing and General March, Rear Admiral Grayson and a score of lesser government officials.

Several thousand people gathered to witness the royal arrival. They set up a mighty cheer as the youthful-looking prince emerged from the station with Vice-President Marshall. A troop of cavalry and a company of marines formed the guard of honor.

The work men were present in flocks, and for five minutes they "shot" him from every available angle. The prince has grown accustomed to the automatic dictation of the photographers and is fast becoming an ideal "patient" as one of his suite said.

The prince was taken immediately to the magnificent Belmont residence, which will be his home during his stay in Washington. There at 3:15 p. m. he entertained the members of his party at lunch. Later in the afternoon he was scheduled to call on Mrs. Wilson at the White House to pay his respects and express his regret at the president's illness.

It was considered probable that he would also visit the sick room of Admiral Grayson decided that the president's condition was such as to prevent it.

The special train of 11 cars carrying the prince and his party passed through Kingston at 5:56 o'clock this morning enroute to Jersey City.

## OPERATORS TO MEET MINERS SOON

Secretary of Labor Wilson to Act at Once to Secure New Wage Scale by Negotiation—Palmer Glad of Result.

By Telegram to The Freeman.

Washington, Nov. 11.—Secretary of Labor Wilson will immediately call the coal miners and operators together to negotiate a new wage scale.

Secretary Wilson made this statement this afternoon following a meeting of the cabinet.

Following the meeting of the cabinet today, Attorney General Palmer made a statement in connection with the coal strike. It follows:

"My information is that the miners have submitted to the court order and have cancelled and withdrawn the strike order. The strike order has been withdrawn, therefore, the secretary of labor will today invite the operators and miners to meet in conference to negotiate an adjustment of their controversy."

"I have been assuming at all times that the miners' organization would obey the law when it was called to their attention in the way it has been, and I am glad that they justified this assumption."

"The way is now open to a settlement by the peaceful process which should always be employed in the settlement of such disputes without injury to the general public."

The meeting called by Secretary of Labor Wilson will be held in Washington, it was stated by Mr. Palmer.

## RUSS GUERRILLA WAR IS A BORE

Correspondent With Cossacks Says  
Neither Reds Nor Denikin's Men  
Eager to Attack Now—Raids Continue.

(By Capt. John Hodgson.)  
With the Don Army (by mail)—I am writing this from the headquarters of the Don Cossack Third Army. We form General Denikin's right wing, and we hope within a few weeks to capture those towns closely ahead of us which are the strategic key to the whole Bolshevik eastward position.

This front is a curious puzzle to a soldier who has fought in France. No one digs in. The opposing forces do not lie close up to each other, and neither side is much given to courting an encounter, the Bolsheviks rather less than the Cossacks.

The relish of the campaign is supplied by the many brilliant raids which are carried out by mounted Cossack brigades. These are indeed adventures in a grand scale. They serve not only as cutting out expeditions but to give the populations behind the Red Army a chance of either rising against the oppressor or resisting and dislocating his mobilization methods.

Denikin's armies are now being reinforced by batteries of guns manned by soldiers drilled and trained by British officers and men at base schools. A fortnight ago I attached myself to a Stokes gun contingent, with which I have since managed to work my way to the front.

Procrastination and a lack of clear-cut patriotism as we know it is certainly a characteristic of the Russians, but much of this must be attributed to war weariness. Their country has passed through the great war, has suffered all the humiliation of betrayal and defeat, and has, on top of it all, been up to its neck in the most horrible of all internecine wars for two years. My own officer-interpreter quite frankly excused the low morale of his compatriots by saying that they were naturally "a little tired."

The peasants look healthy and jolly, but they profiteer to the utmost. One woman at an outlandish place charged me a shilling for an egg. I told her that it could not have cost anything like that sum, and accused her of profiteering. Her answer silenced me. An egg, she said, had in peace time represented to her the equivalent of a box of matches which would now cost her about a shilling.

The morale of the peasantry is lower than it was, and they lie with perfect nonchalance. A common man who lives under what approximates to the shadow of the guillotine for years is not going to develop high moral attributes. That the Russian character is fundamentally all right I am sure.

In spite of the Bolshevik blight the people have not forgotten the formalities, at least of their old religious practices. The men approach battle in a cleanly way and face death in a reverent spirit. During our journey each night at dusk the men of the battery formed up alongside the track, chanted their beautiful evensong, and lifted their fine voices in prayer. I cannot do justice to the arresting and awesome effect which I always experienced on hearing the men performing these devotions in the calm of the evening at quiet country railway stations and at the front.

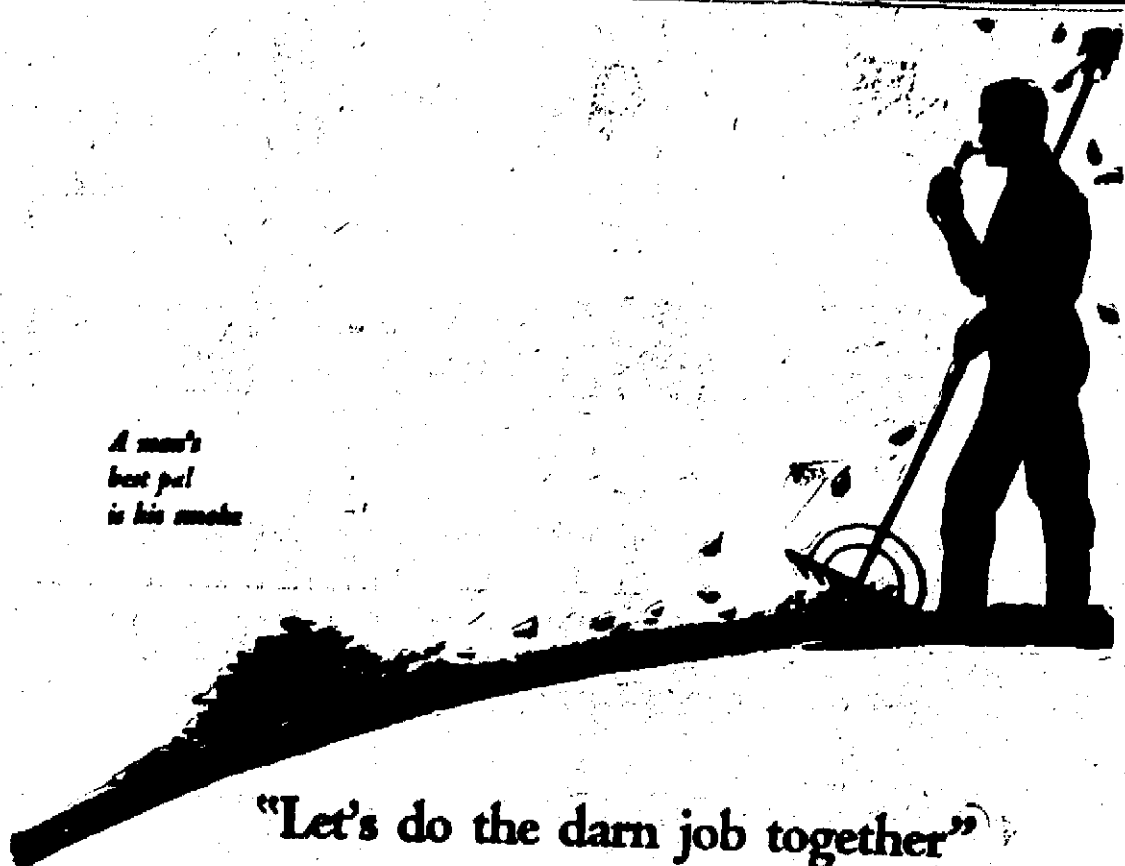

The battery of Stokes guns with which I am marching goes into action for the first time tomorrow. A few weeks ago I would not have risked the adventure with them for a large fortune. They were ragged and without boots to a man. They were absolutely without enthusiasm or discipline and were lazy beyond belief. Today, however, they are clean, smart, well set up and full of pluck. Their English clothes, the self-respect with which their English instructors have imbued them, and the pride they take in their English weapon, have all worked marvels. They seem to have realized that there is still something left for which it is worth while living and fighting.

It seems that the end is still a long way off. Some of the best Russian generals think that the civil war will run into another two years; but there are distinct signs everywhere among the troops of Denikin that their crushed and decimated patriotism has been reawakened, and that they are determined to carry on until Bolshevism has been destroyed.

**Bicycle for One-Legged Riders.**

A French firm has devised an ingenious method of adapting a bicycle to the one-legged rider. The chain is cut and one end attached to the sprocket, while the other end is secured to a coil spring from the lower frame. In this way the rider simply pushes the pedal down, and the spring draws it up again, and the usual rotary motion so difficult for the one-legged rider is eliminated.

**WHY** is it that more and more smokers (millions now) are getting together with Chesterfields?

First of all, fine tobaccos. Our own buyers in the Orient send us the pick of the finest Turkish varieties (Xanthi, Cavalla, Smyrna and Samoun). We blend these by a secret method with specially choice Domestic leaf.

This method brings out new qualities of flavor—a smoothness, a richness, a mellowness that go right to the spot. That's the reason Chesterfields satisfy.

And remember—"Satisfy" is Chesterfield's secret, based on our own private formula, which cannot be copied.

Every package has a moisture-proof wrapping—another reason for Chesterfield's unchanging quality of flavor.

**Get Rid of Your Gas Grouch for Good**

Don't have a grudge against the Gas man. It's not his fault that you persist in squandering precious fuel. He can't help it. But you can, however. Here's how—simply equip that car of yours with a New Stromberg Carburetor.

That's all. Right away mileage begins to multiply. Costs fall off. You go farther on fewer gallons of fuel. Your engine loses its gas greed. Then when you do wheel up to a supply station it's with a feeling of satisfaction that you have had the longest possible run for your money. There is no ground for grievance.

New business brother—don't say "that might work on some cars—but mine, well I don't know."

Your car is no exception. Its exact duplicate—by the scores are Stromberg equipped—and are giving more mileage by many miles, than you are getting.

The New Stromberg holds official economy records on virtually every make of machine.

On any car, of any year, of any size it invariably effects greater gas economy. Not only that—it actually gives better acceleration—more power and more speed. Makes a better car of the best of them.

Come in and let us show you just why and just how the New Stromberg puts a crimp in fuel consumption. Put a New Stromberg on your car. Put it to a ten day test. See the savings. Figure the economy. Get the facts. Then if you are not satisfied—we will take it back and hand back your cash price without a question.

## STONE RIDGE CHURCH REBUILT

And Decorated in Manner Unusual  
for Country Churches Through Gen-  
erosity of Mrs. Leggett.

The Episcopal Church building at Stone Ridge has been very substantially rebuilt, refurnished and beautifully decorated. The mural decorations are the work of Stephen Hawley, a very promising member of the younger English artist set, a son of Dr. Hawley, a well known author whose book on "Music and Morals" was quite the vogue twenty years ago.

Among the paintings are those of St. Peter, the Nativity, the Virgin and Child, the Miraculous Draft of the Fishes and the Flight into Egypt. The special gift of the young artist in the broken tiles and these illustrations of his art betray unusual movement and vivacity. All this is the gift to the church of Mrs. Francis H. Leggett in loving memory of her husband. An appreciation of the Leggett gift was very beautifully and feelingly phrased Sunday by the Rev. Mr. Agnew, the rector of the church. The occasion was honored by the presence of Archdeacon Pott, who delivered an inspiring address on the text, "I Had Rather be a Doorkeeper in the House of My God than to Dwell in the Tents of Wickedness."

Miss Hilliard rendered in beautiful voice very sympathetically the "Ave Maria." Harry P. Dodge of Kingston, presided at the organ.

Many friends of Mrs. Leggett were present at the exercises. Among others were Judge Alton B. Parker and his daughter, Mrs. Hall, Mr. and Mrs. James O. Winston, Miss LaMott, and Mrs. Chadbourne. Mrs. Williams Carter, Admiral and Mrs. Higginson, Miss Mary Haldane, Mr. Watson of India, and Judge and Mrs. Hasbrouck.

Francis H. Leggett, until his death a few years ago, was one of the leading merchants of America. He was born in New York city March 27, 1840, and at the age of 16 commenced his career as a clerk in a commission house. In 1862 with his eldest brother he formed a co-partnership, which was dissolved in 1870 when Francis H. Leggett withdrew to establish a new firm with his younger brother, Theodore, under the firm name of Francis H. Leggett & Company. This business grew very rapidly until it became one of the largest and most prominent firms dealing in food products in the United States.

### ULSTER PARK.

Ulster Park, Nov. 10.—On Tuesday evening, November 7, the entire congregation gathered at the parsonage, the occasion being a "farewell party" to the Rev. and Mrs. C. Van Oostenbrugge, who expect to leave for Schenectady on November 15, although the dominie will continue to fill the pulpit until the end of the year. The large parsonage was filled to overflowing. After the greetings, Elder George Eckert called the company to order and made a brief address in which he said that the many pleasant gatherings they had had in the parsonage during the past five years. They had always had a good time now, although the occasion was a regrettable one, for this was a farewell party to the pastor and his wife who had endeared themselves to the people of Ulster Park. Speaking for the consistory he desired to say that everyone of them would say "You can't go," were it not for the fact that the condition of the dominie's eyes made an operation necessary which would disable him from doing the work required for a considerable time to come. He felt sure that the people of the entire community were very sorry that this condition necessitated the leaving of Mr. and Mrs. Van Oostenbrugge. He then reminded the company that on a previous occasion they had presented Mrs. Van Oostenbrugge with a silver tea service which was incomplete; therefore in behalf of the congregation he had the pleasure now to make it complete, and presented the "jufvrouw" with a beautiful silver tea-pot. Mrs. Van Oostenbrugge responded by heartily thanking the consistory and the congregation, and invited them to come to Schenectady to take five o'clock tea with her, provided all her friends would not come all at the same time, for her new home would not be large enough to accommodate them. She turned the speaking over to Mr. Van Oostenbrugge, who said that in all his experience he had never had a consistory which had been so uniformly harmonious as the consistory of Ulster Park. There had not been the least friction between him and any member of the consistory during the entire five years of his pastorate. The Rev. C. Polhemus, a classmate of the pastor, then was called on for a speech. He congratulated his classmate upon the more than common good will manifested towards him by the people of Ulster Park, upon having had a pastor for five years who served them so acceptably. Mr. Polhemus then offered prayer and thanksgiving. After which the company all joined in the singing of "Blest be the Tie That Binds Our Hearts in Christian Love." An enjoyable time of fellowship by the older people followed while the young folks danced in various games. The company went to their homes about midnight. The Rev. and Mrs. Van Oostenbrugge will reside at 243 Parkwood Boulevard, Schenectady, N. Y.

### Hollyhock Garden and Americanism.

The annual Church dinner, supper  
and sale of articles of the Montout  
Presbyterian Church this year will  
be held in the chapel which will be  
converted into an old fashioned Hol-  
lyhock garden. The ladies who will  
be in that garden to welcome their  
friends will be garbed in old fashion-  
ed costumes of those historic periods  
when this country did not have to  
cultivate a spirit of Americanism.  
For there was no other spirit to be  
found here. Their customary deli-  
cious turkey dinner, with all its fix-  
ings, almost as historic as the gown  
of the ladies, will be served at noon  
on Tuesday next, November 18th. On  
the following evening at the usual  
hour a most toothsome supper will be  
served after which there will be an  
entertainment. Throughout both  
days there will be on sale aprons, do-  
mestic and fancy articles, candy and  
articles for the children in a good old  
fashioned fish pond.

### Uptown Turkey Dinner.

Society of the First Reformed Dutch  
Church wish to announce to their

dinners in the chapel of the church.

## FIRE BOARD NAMES FIREMEN

Richter, Gillen and Barber New  
Paid Members—With Two-Pla-  
toon System and Motorized Ap-  
paratus City Has Modern Plant.

A meeting of the board of fire  
commissioners was held last evening  
at Central Fire Station.

Harry Richter of 203 Greenhill  
avenue; Clarence Barber of 25 Jan-  
sen avenue and Edward Gillen of  
102 Abruyn street were appointed  
members of the paid fire depart-  
ment, their appointment to take ef-  
fect on the 16th of November when  
they will report for duty and as-  
signment by Chief Chipp. Farrel  
Fleekle of Central Hook and Lad-  
der, a substitute, was appointed a  
regular fireman, third grade.

Chief Chipp was instructed to in-  
stall the two platoon system not  
later than one week after the new  
men appointed last evening report  
for duty. A schedule has already  
been prepared by Chief Chipp for  
the installation of the two platoon  
system. This will place the men on  
duty for one week during the day  
and the following week on duty at  
night. The system will place a full  
force of men on duty at all times.

The new fire truck, which will  
displace the horse drawn hook and  
ladder affair at Central station, will  
be shipped by the middle of No-  
vember and will take perhaps two  
weeks to arrive. When this arrives  
the entire city fire apparatus will be  
motorized and with the two platoon  
system in effect Kingston will have  
a thoroughly modern and up-to-  
date fire department.

The board adjourned subject to  
the call of the chair for the purpose  
of discussing and preparing the new  
fire ordinance, which will probably  
be put into effect shortly.

### Parent Teacher Meeting Put Over.

The High School Parent Teacher  
Association of this city will not meet

postponed meeting will take place at

### Community Sing Tonight.

Don't forget the Community Sing  
taught at the High School. You  
will want to get in for the early re-  
hearsals of the "Prince of Peace,"  
which is a beautiful composition,  
greatly enjoyed by those who were  
at last week's sing. What if you  
are going to the Armistice Ball, you  
can do as well as Mr. Dodge, and  
stop at the Sing on your way to the  
ball. A "break" rehearsal of the  
songs won't hurt anybody.

## NAPANOCH FOLKS IN DIVORCE COURT

Harry Christian of Napanoch Brings  
Suit Against His Wife, Naming a  
Bridgeport Man as Co-respondent.

After hearing arguments on the  
application of supreme court, special  
term, in Newburgh, Saturday, says  
the News, Justice Seeger has granted  
\$125 counsel fees and \$7 a week  
alimony to defendant in the case of  
Harry Christian against Annie Chris-  
tian, an action for divorce, the plain-  
tiff accusing his wife of misconduct  
with one Jesse Nicholson at 384 East  
Washington avenue, Bridgeport,  
Conn., between September 1, 1917,  
and December 1 of that year.

Christian keeps a sporting goods  
and confectionery store in Napanoch,  
four miles from Ellenville, Ulster  
county. Nicholson also resides in  
that village. Both left Napanoch  
during the war to go to work in the  
Remington arms factory in Bridge-  
port. After the cessation of hostilities  
they returned to Ulster county.  
Christian and his wife separated  
September 1, 1917, because of her  
alleged intimacy with Nicholson, the  
husband paying her \$7 a week from  
that time until June 1, 1919, since  
which date he has paid \$5 a week.  
She is now employed in a restaurant  
in Newark, N. J. The couple have  
no children.

Nicholson's wife obtained a di-  
vorce from him August last, naming  
Mrs. Christian as a co-respondent.  
Christian says his wife is addicted  
to drink, that she was arrested in  
Bridgeport for intoxication and  
sentenced to jail for 30 days, and  
that on January 1, 1917, she was ar-  
rested in that city under the name  
of Anna Cookley on a charge of  
shoplifting, and released under sus-  
pended sentence. He says also that  
of her own volition she was confined  
in the House of the Good Shepherd,  
an institution for intemperate wom-  
en, in Bridgeport.

The wife says that Christian  
earned \$7 to \$9 per day in The Rem-  
ington Arms Works and that re-  
cently he transferred the ownership  
if his store in Napanoch to his  
mother in order to shirk financial  
responsibility toward her. She al-  
leges also that he owns \$700 in U.  
S. Liberty Loan bonds and eight  
building lots at Shoreham, Long  
Island. He says his earnings in  
Bridgeport amounted to only \$5 a  
day, that he transferred the Napa-  
noch store to his mother to pay a  
debt long outstanding, that he was  
compelled to sell his \$700 bonds to  
pay the wife's expenses and doctor  
bill while she was in the home of  
the Good Shepherd, and that nine  
years ago he bought four building  
lots at Shoreham for \$140, the prop-  
erty being still unimproved.

John R. DeVany of Ellenville  
counsel for the wife asked for \$10  
a week alimony and \$150 counsel  
fee, but the court placed the alimony  
at \$7. Clarence A. Hoornbeck is  
attorney for Christian. Nicholson  
has taken steps to defend himself in  
the litigation, both he and Mrs.  
Christian denying the charges against  
them. Christian says his wife told  
him that she cared nothing about his  
getting a divorce, but intended to  
make it cost him as much as possible.  
The case will probably be tried be-  
fore Justice Hasbrouck in Kingston.

Prince Antonio de Orleans

Infante Antonio de Orleans, uncle  
of the King of Spain and husband  
of the Infanta Eulalie, who myster-  
iously disappeared from Spain has  
given rise to the belief that he has  
been kidnapped by plotters after his  
return. King Alfonso recently is-  
sued an order of restraint on Prince  
Antonio because of the latter's inca-  
pacity to manage his own affairs.  
Prince Antonio was at Seville with  
his guardians when he disappeared.  
He recently inherited a fortune said  
to be close to \$5,000,000, and it is  
thought that some of his former as-  
sociates in Paris plotted to get part  
of his fortune.

### Piling More Than 400 Years Old.

Many of the piles in use in Amer-  
ican are 300 or 400 years old. That  
fact which is not in the ground in  
salt water is often bored by a pile-  
worm near the surface, but it is pre-  
vented by driving in nails with very  
large heads, so as to give the pile an  
even coating. This coating is then  
transformed by the water into a layer  
of rust, which prevents the wood from  
being attacked. This process must be  
repeated every 15 years.

### Letter of What.

The modern name was evolved by  
Lord Bingle who died 150 years  
ago. The name is a corruption of what  
was once a very old name in a town.  
I had heard such names as a child in  
a Glasgow town. Bingle was ex-  
tended "Bingle" to "Bingle" what  
it was to "Bingle."

## COFFEY TRAINS FOR BIG BOUT

Vince Meets a Fast Man Thursday at Third Smoker of Kingston Athletic Club—Vallon is a Knock-Out Artist.

Vincent Coffey, the local boxer is fast rounding into trim for the big bout Thursday night at the Kingston Athletic Club, when he steps eight rounds with Jimmy Vallon of Newark, N. J. Vallon recently met a fast man at the Newburgh show, and put him away in the third round. He is said to have a number of K. O.'s to his credit.

Coffey, when in shape is one of the best 130 pound fighters along the Hudson river, and is rapidly forging to the front. He is fast and carries a punch in either fist. He will need all his skill and speed to stop Vallon, and one of the best bouts ever staged in Kingston may be expected by the boxing fans.

There are a number of fans who would like to see the bouts, but do not know just where to secure tickets. For their benefit the club officials have placed tickets on sale at Dulin's store near the West Shore railroad, Sammons's lunch room and Ryan's barbershop on the Strand and the Mansion House barbershop on lower Broadway. On Haverbrook avenue tickets may be had at Irwin's cafe.

A corner in the boxing game is Joe Riley of this city, who fights at 147 pounds ringside. He will make his debut before the local club that evening when he steps six rounds with Willie Collins of Newburgh. Collins has been in the game for several years and is both clever and fast. This should prove a bout worth seeing.

The other six round bout is between Turk Kelly of Wappingers Falls and Young Ahern of Newark. All of the Newark boys have proven fast, and the fans all know Turk John Troy and Jim Howe box the preliminary.

## The "Autometric" Carburetor

-YALE-

Made by The Yale & Towne Mfg. Co.  
STAMFORD CONNECTICUTHow do you like to  
pull out of tight traffic?

Like this?

YOU jam her down, spin the rear wheels, rack the whole machine, and go 20 feet (if you don't stall the motor).

Or, like this?

—20ft.—

You haul ahead with every ounce of power the machine can carry, but do not spin the wheels, nor stall the engine, nor have to get in any careful toe work on the accelerator. And you get the same 20 feet just as quick.

That's what we call flexibility of control—power in the pinches when you need it. And a smooth even flow of power too. That's the kind of control you get when you equip your car with an "Autometric" Carburetor made by The Yale & Towne Manufacturing Company.

That's the kind of control that eliminates at least 20% of your gear shifting.

And in addition you get more power, up to 30% more mileage from your gasoline, and engine vibration is reduced to a minimum.

You get these benefits because the "Autometric" Carburetor provides the correct mixture for all speeds for any car. No more fuel is burned than is actually necessary at whatever speed you are traveling—best results at all times.

Step in and we'll arrange to have your own garage man put an "Autometric" Carburetor on your car on approval.

## More Words to Use.

Students of the English language attribute to aerial navigation the addition of 200 new words. As the average American has had in the past a speaking vocabulary of only 650 of the more than 800,000 words in the English language, the increase brought about by the airplane and airship is regarded as remarkable.

## Excuse Recalled.

Robert had finished the evening meal and had politely asked to be excused. As he started to play his mother began serving those still at the table with watermelon. Realizing he had left too soon, Robert ran to his place and as he climbed up in his chair said: "I'd forgotten the watermelon, so excuse me back."

AN EVENING  
WITH GENIUSES

It would require a very special vocabulary used with rare gift of discernment and a good deal of self restraint on the part of the critic to properly report the Earle Hummel recital of last evening so that those who were not present would credit what they read. Summed up it was an evening, a rare evening with geniuses, and the latter word vividly illustrated. But once before had the writer heard Stanley Hummel play and then evidences of genius were just beginning to show. Last evening at the First Presbyterian Church proved that Stanley was running his brother Earle a close second as to being gifted, though Earle is two years older than Stanley, having just entered his teens. The program itself was overwhelming, requiring prodigious talent and hard work to make it even possible. A full Spohr Concerto, a movement, and a brilliant one, from one of Wieniawski's Concertos, and the marvelous Fantasia Appassionata, by Beethoven, were the numbers for thirteen year old Earle! Incredible, it seemed. An exceedingly difficult and tricky number as far as technique is concerned, by Moszkowski was Stanley's part of the program while both lads and their father together with Gordon Burhans were announced to play a Haydn String Quartet! A group of seasoned artists might well stand aghast before such a program, as they would have sat speechless at the rendition of the same.

In the past year Earle has developed immeasurably in his grasp of the content of the big things he plays, as well as having gained a power and sureness of bowing with accompanying grace and freedom of movement; an almost unbelievable facile finger action; a larger clearer, more perfect tone, and withal, a greatly deepened gift of interpretation.

Describing the music in its own words, especially cold-type words, is an utter impossibility, of course. Suffice it to say that through the vivid "Allegro," the pathetic and beautiful melody "Andante," and the crisp brilliancy of the "Rondo (Allegretto)," by Spohr Earle, who splendidly accompanied by Mrs. Putnam Cady at the piano, showed the artist there is in him by the rare clarity and richness of tone effects, and beautiful shading. It was a masterpiece in technical rendition of a great composer's work played in masterly

fashion by a little thirteen-year-old lad, and the written statement does sound impossible, one must admit. Then came Stanley's chance, and he made the most and best of it. Considering the piano, the lad undoubtedly has an exceptionally good touch, producing in simple fashion, with no nonsense, a round, full tone. Yes, and a sure tone! Think of playing Moszkowski's Caprice Espagnol, with its exceedingly rapid repeated notes, and a spirit of dash and fervor. Many a mature artist has shed inward tears of vexation over at least the stammering note in the concert performance of this difficult work, while Stanley sailed through, and that with a good deal of temperament without a single stutter. Evidently the audience was amazed as well it might be, and the lad was obliged to give an encore. One of the short "Preludes" by Bach delighted the audience, some because of the composer; others, because they did not have to see his awesome name on the program and therefore just enjoyed the music.

As a coming pianist of most exceptional gifts, Stanley Hummel will bear close watching. He is at present studying with his mother, certainly a great compliment to her gifts as an instructor. Why! In spite of the handicap of instrument—Earle having the decided advantage there—Stanley put his audience quite in love with the piano once more.

One of the most enjoyed numbers on the program was the "Allegro Moderato" movement from the Wieniawski "Concerto in D Minor," played by Earle with a glowing brightness of tone and beauty of coloring, the lovely figure in this work being splendidly brought out by the young violinist. This certainly did get hold of the audience, and prolonged applause followed it. As an encore, Earle played the "Praeludium, Allegro," by Kreisler, which he played at the High School Auditorium last week, but last night he played it with an abandon and a spirit, not to mention astounding technique, far exceeding Wednesday night's performance. It was virile, beautiful, brilliant by turns with a climactic finale that ended in a whirlwind of beautiful sound.

Then, just to give both the audience and the performers a sort of breathing spell, the Hummel String Quartet, Ford Hummel, first violin; Earle Hummel, second violin; Stanley Hummel, viola; Gordon Burhans, cello, played the beautiful Haydn Quartet in F Major. The one thing which the entire composition, in its four movements made the writer think of, was that it was shot through and through with light. It certainly was a thoroughly artistic production, and if the spirit of "Papa Haydn" was hovering near it must have been indeed happy.

Under any circumstances, a string quartet is an entirely too infrequent number on our musical program, and the combination of instruments well played, the composition and the personality of the performers all lent a combined charm to this number.

If one had been at all skeptical as to Earle's ability to handle the beautiful "Fantasia Appassionata" by Beethoven, they had lost all such skepticism before this number on the program was reached. In clear searching, commanding tones, the lad played the virile "Allegro Moder-

ato," the lovely and romantic "Andante," the brilliant and tremendously difficult Moderato and Variation, and finally the dashing, compelling "Allegro Vivace," in a manner to leave the audience almost breathless with amazement and delight. After playing such an almost impossible program as Earle had played it seemed scarcely conservative to insist upon an encore, but how could that audience help it? So the boy with one of his whimsical smiles came back and with rare grace and charm played Kreisler's Rondo. With the exception of the Haydn quartet the entire program was played from memory. Surely last evening's performance heard by a large and thoroughly appreciative audience presage most exceptional future renown for these two youthful musicians who while children are yet virtuosos. Dr. Putnam Cady said that he was fairly swelled up with pride at having such a group of boys in his church, and the entire Kingston community may well say the same as to the community.

One feature of the evening which counted tremendously as to its success was the exceptionally musician like accompanying of Earle's numbers by Mrs. Putnam Cady.

Two Kinds of Economy  
in the Post-War Maxwell

THE Post-War Maxwell inherited from its 300,000 predecessors two traits that captivate the person who likes continuous, uninterrupted, comfortable and low cost mileage.

One is its freedom from repairs. It runs on and on. Give it gas, oil, grease and water and it will deliver an amazing amount of mileage.

The second is the low price you pay per mile. Its thrifty engine makes gas go a long way. Its 2000 pounds of weight assures long tire wear.

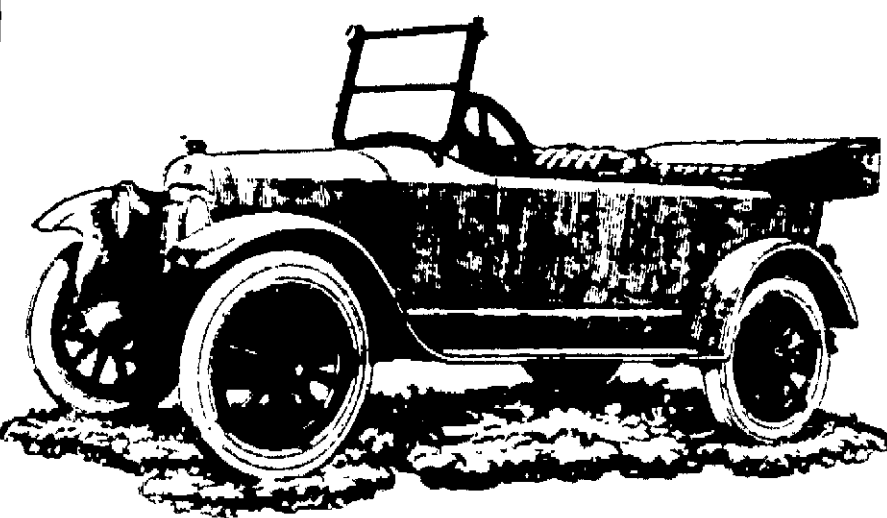

Such kinds of economy came from years of study and the experience which 300,000 previous Maxwells have taught.

The notable improvements and refinements to be found in this car have caught the attention of many who figured that high efficiency meant high price.

The public has served notice that it does appreciate value.

That is why 40,000 persons will have to go without a Post-War Maxwell this year though 100,000 are being built.

### AT THE THEATRES.

**The Flirting Princess at Opera House**  
Tonight.

Harry Bulger, the King of Musical Comedy, comes to the Kingston Opera House tonight, in his latest and biggest success, "The Flirting Princess."

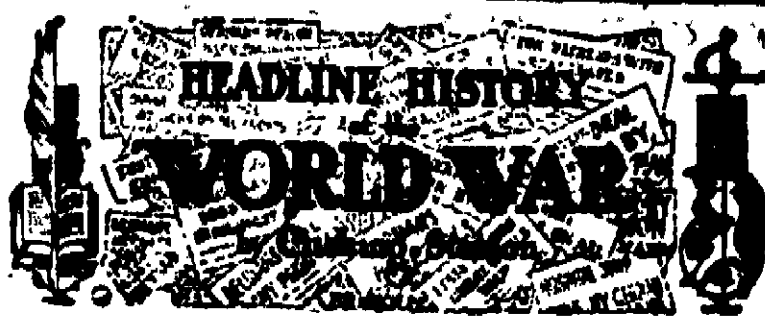

The cast of Tom Moore's newest Broadway picture, "The City of Comedy," a pictorialization of Basil King's widely-read novel of the same name, is in keeping with the dignity and beauty of the story. Tom Moore assumes the role of Frank Melbury, the young man of the family who sinks to the lowest depths and makes his way up again through force of will. This picture will be shown at Keene's tonight.

In "A Sporting Chance," a new Paramount picture presenting that beautiful and fascinating star, Ethel Clayton, which comes to Keene's tomorrow, the quick wit of a girl turns the machinations of a scheming blackmailer and prevents him from carrying out his nefarious designs.

Elsie Ferguson's new picture, "The Marriage Price," which is the bill at the Auditorium tonight, is a beautiful photoplay and one of the best in which she has appeared this season. "Three's a Crowd," John Cort's comedy which is the attraction at the Kingston Opera House Saturday, matinee and evening, is based on the story "Kathleen," which was written by Christopher Morley and published not long ago in an issue of the Metropolitan Magazine.

**Solve Problem of Placing Memorial Tablet.**

When it came time to place the memorial tablet in the corridor of the high school building the Alumni Association found it impossible to hire any masons to do the work. Of course they were at loss as to what to do, but the problem was soon solved by Mr. Service of the high school manual training department. Mr. Service and a number of manual training students offered their services, which were duly accepted and the tablet was set in place.

To show their appreciation of the good work, the Alumni Association wrote Mr. Service the following letter: Prof. Robert J. Service, Kingston High School, Kingston, N. Y.

Dear Sir:—It is with pleasure that I express to you and the boys of your manual training classes, the thanks of the Kingston High School Alumni Association for your kindly assistance in erecting our memorial tablet for us.

### PRACTICALLY ON CASH BASIS

Little Real Credit Business Is Done by Foreign Firm Operating in China.

When a foreign firm opens up in China one of its first cares is to select a comprador, writes "Americana" in Asia magazine. This individual is usually a wealthy merchant of the town with considerable property. He becomes, not an employee, but a kind of associate of the foreign business man, and while keeping up in many cases his own independent commercial ventures, he establishes an office connection with the firm's office, where he acts as intermediary for all transactions with Chinese customers. No Chinese order is booked without his approval, for he takes the place of our "credit man" and knows who can be trusted and to what extent. But he differs from the credit man in that he, in return for a commission on the transaction, assumes full responsibility for it and pays up himself if the customer defaults. Being a man of property he can do this, and to make assurance doubly sure, the foreigner usually requires him to deposit security in the form of title deeds to land or even cash in some cases. When the goods are finally delivered it is not usual to give long credits. In one of the principal parts of China payments are usually made at once through what are called native bank orders, i. e., checks dated five or ten days ahead and covered by some Chinese bank. In other words very little real credit business is done, according to our idea of that term, and it is consequently not surprising that there are no foremen.

The only true independence is in honesty. But honesty is not the virtue of a fool; since it is not consequent upon any comparison between ourselves and others, but between what we are and what we ought to be.—Washington Alliance.

Big game hunters open season.

The opening of the deer hunting season in the Adirondack Mountains recently resulted in a rush of big game hunters and sportsmen to the hills. Here is shown a hunting party who on their first day on the trails succeeded in bagging a splendid buck.

## "A Man May Be Down But He's Never Out"

That's the motto that hangs over the door of the modern down-and-out club. It's patterned after the slogan of the Blue Bonnet Lassies—the rescuing angels who braved shells and flame to comfort the boys "over there."

Frank Melbury was a living example of the motto. He was down—deep down—but he NEVER gave up! When a beautiful girl just "happened" along and pointed the way to Loveland, Frank Melbury took a personal inventory—and his manhood did the rest.

## ANNUAL MEETING ULSTER COUNTIANS

Society in the City of New York  
Will Meet at Stewart's Restaurant  
November 22—Annual Banquet Takes Place January 15.

The fourth annual meeting of the Ulster County Society in New York City will take place at Stewart's Restaurant, Park Place, New York City, on Saturday afternoon, November 22, at 1 o'clock. A luncheon will be served at an individual cost of 70 cents. At this meeting, which is the only business session of the year, officers will be elected for the ensuing year and other important matters will receive attention. It is requested that all members make a special effort to be present at this meeting.

The annual banquet of the society will be held at The Biltmore Hotel, Madison Avenue at Forty-third Street, New York, on Thursday evening, January 15. Banquet arrangements will be announced later by Joseph Drake, the secretary.

The Ulster County Society entered upon its fourth year under most satisfactory conditions. Since its organization on November 16, 1916, the membership has increased from 14 to 411 members. The third banquet of the society last February eclipsed all other dinners, both in attendance and fellowship, and there is every indication that the Ulster County Society will equal, if it does not surpass, any similar society in the greater city.

Banquets and dinners have not been the sole object of this society. During the past year it has been operating on a broader plane. It has been instrumental in aiding members in Ulster county and their friends in numerous matters connected with the demobilization of the military and naval forces of the country. Arrangements were made by which the sons and daughters of Ulster, who were serving our country, were enabled to rejoin their families promptly on their return from overseas service. Families were enabled to meet their returning sons before the troopships landed, in some cases, or before the boys had been sent to demobilization camps. When Ulster county planned a Welcome Home celebration for the returned boys on April 1 of this year at this city, the celebration was made complete by the return home, just as the celebration began, of members of the Twenty-seventh Division, through the instrumentality and activities of various members of the Ulster County Society. While no stated pilgrimage has been made to the home county since September 1918, yet the society has been officially represented at all celebrations held here and at various social and civic functions.

At the last annual meeting of the society it was voted that beginning with the year 1920, the dues should be \$2 to the active members of the society who reside in New York city and its suburban places, and that members residing in Ulster county could become associate members with dues at \$1 a year. All members are urged to remit their dues for the ensuing year promptly to Holley R. Cantine, treasurer, 33 Park Row, New York city. Those who are planning to attend the annual meeting should notify the secretary, Joseph Drake, 116 Nassau Street, New York city.

### Cork Rioting Resumed.

By Telegram to The Freeman.  
Cork, Ireland, Nov. 11.—Two soldiers were shot in another outbreak of rioting which began here last night and continued until early today. The provost marshal was wounded in the thigh and a soldier in the forehead. There were a number of clashes between soldiers and civilians before order was restored, and in the confusion, a number of shops were looted.

## THERE IS A PLACE FOR THE NEGRO

But Not as White Man's Equal, Says Smith—Now Has Equal Access to Schools, Parks, Courts and Other Public Institutions—Ku Klux Klan and Lynching Bees Result of Un-speakable Outrages.

What more do the negroes want? The most cruel war in the history of our country, was fought to free the negro race from bondage, one of the most wonderful men that ever lived was martyred in their cause, they have their own societies the same chance for a free education as the white boy or girl, the same use of public service, at least in the north, and as for public parks, I have never gone into a public park in New York state without meeting several of them in it. One Sunday last summer, when I visited Forestry Park they were holding a religious service there. America would have won the last war, as she has won all the other wars, without the help of the negroes, but why shouldn't the negroes help fight when our country was at war? Is negro blood any more precious than the white man's? Are they not enjoying the benefits of it? Democracy is a wonderful thing, but it doesn't mean that we should be color blind, nor does it mean that we should place a negro at the head of our country, and that is what they would want next. The negro soldiers were given just as good a welcome home as our white boys received, they were given an honorable discharge from service and there is always work for them if they are willing to do it, and if the negroes would behave themselves there would be no need of lynching or revisiting the Ku Klux Klan. What I would call bigotry would be to allow the negro men to commit some of their unspeakable outrages, without punishing them. How about the Ford case, could a colored jury be more just than the white men on the case? He was given a fair trial, too much so for the same he committed. If our congress, made up of some of the most intelligent men in America, cannot cope with the present situation what could a negro congress hope to do? And my opinion of an uneducated straight from the shoulder American, would be an Indian as they were the only race here when a white man discovered America. I am a loyal American citizen, but like all the rest of the white race, my ancestors came from some other country and helped fight and free America before I could be one. If the negroes feel that they should keep rule and make laws, etc., why not go back to Africa.

There is plenty of room for advancement there, both politically and morally. The white race have made our country what it is today. Why should we allow the negro to help rule it? Yes, there is place for the negro in the world, but not as a white man's equal.

POUGHKEEPSIE REPLIES.  
Has a Faster Stamping Machine Than Kingston.

Says the Poughkeepsie Evening Star.

A story which appeared in a Kingston paper in regards to a new cancellation machine that has been added to the post office there, and the statement that the old machines are fast enough for "lesser cities like Poughkeepsie and Newburgh," has created excitement at the local post office.

P. W. Limmer, assistant postmaster, said: "The local post office always had a faster machine than the new one Kingston has just received and they must be thinking of small villages, not of Poughkeepsie, as they know we always beat them in everything along that line."

He also stated that the office force here has been very busy with mail. The "flier" which has been added to the Kingston post office handles 1,950 letters a minute, while the one in the local office handles almost twice as much, he said.

Crescents Will Play.  
On Wednesday night of this week the Wappinners A. C. and the Crescent Five of this city will meet in a game at Wappingers. As a preliminary Burke's Roosters of Wappingers and the Young Eagles of Poughkeepsie will demonstrate their skill at the game. Between the halves there will be a vaudeville act by Martin and Stokes of Poughkeepsie.

Agreed Better Apart.  
Ansel and Fred were chummy, but got into a dispute before playing together long. Finally they remained away from each other for several days, and Ansel's father asked him what the matter was that they didn't play together any more. "Why," replied Ansel, "we've agreed to stay away from each other, 'cause we got along together better when we are apart."

Something to Be Proud Of.  
Some folks wipe the drops of sweat off their faces as if they were really ashamed of them. Man alive, drops of sweat that come from good, honest work are finer than any gems that ever sparkled in the crown of a king. And their greatest beauty is that they make the whole world happier and better. This cannot always be said of the stars on the monarch's brow.—No change.

## ARTICLE 10 IS AGAIN UNDER FIRE

Administration Senators Still Object to Reservation Which They Claim "Cuts Heart Out of Treaty"

—Points Rescued.

By Telegram to The Freeman.  
Washington, Nov. 11.—The Senate this afternoon resumed consideration of the pending reservation to Article 10 of the league of nations covenant. This is the reservation which President Wilson rejected as "certain to cut the heart out of the treaty."

Its phraseology has been altered slightly, but Senator Hitchcock, of Nebraska, the administration leader, declares it still is "objectionable and obnoxious to the friends of the treaty."

Under it the United States would assume "no obligation to preserve the territorial integrity or political independence of any other country or to interfere in controversies between nations"—whether members of the league or not. It also stipulates that the United States would not be obliged to employ its naval or military forces under the league except with congressional sanction.

President Wilson's famous 14 points were the target for an attack by Republican senators when debate on the reservation was resumed.

"By the greatest stretch of the imagination and the use of a magnifying glass I defy any senator to point them (the 14 points), out in this treaty," Senator Lenroot, Republican, Wisconsin, said.

Senator Penrose, Republican, Pennsylvania, said it was his understanding the Germans were "influenced to lay down their arms under the beautiful promises pictured in the 14 points."

Senator Norris, Republican, charged "bad faith" in the making of secret treaties by the big powers with which the United States was associated.

"As I am an American I feel humiliated and outraged by the action of the president of the United States in going to Paris and agreeing to a covenant which no person in this country wanted or cared about," Penrose declared.

## ARMISTICE DAY IN WASHINGTON

By Telegram to The Freeman.

Washington, Nov. 11.—Dropped up in his bed President Wilson today expected to watch from a White House window the first celebration of the end of the great war.

The celebration will be held in historic Lafayette Square, just opposite the White House.

An aerial prayer, offered by Lieutenant Belvin Maynard, "the flying parson," was to be the feature of the celebration. Lieutenant Maynard was to offer a prayer by wireless telephone from an aeroplane circling over the park. Early weather conditions threatened to interfere with this feature.

A volley of 48 shots from 48 rifles, fired by soldiers, sailors and marines from 48 states, was to be discharged at one minute before 11—the hour when peace came to the world one year ago.

Vice President Marshall and other high dignitaries were to take part in the planting of two great redwood trees opposite the White House in memory of the men who fell in battle.

In the school yard of the Force School, small students of that institution will plant a tree in memory of Quentin Roosevelt, who attended the Force School when a small boy of the White House.

For eleven minutes all Washington will cease its work and sing songs of praise—then work will go on and the nation's capital will have completed its celebration of the first anniversary of the war's end.

### The Honor Code.

Those of us who would have our days gladdened by punctuality should not expect too much of the hands of others. This is a statement of fact, indeed, almost every minute of every hour is all too crowded for the average person. There is but one honest code to go by—pay fair. The girl or woman who does so will have abundance to regret, and will prove a real inspiration to others around her.—New York Evening Telegram.

## SEASON'S DINNER

At St. John's Parish Home to Lack All Formality.

The dinner to be given Bishop Burch, the Rev. Dr. Stiles and the Rev. Dr. Chorley at St. John's parish house Wednesday evening, will be an absolutely informal affair, no "dress suit" occasion at all. What is wanted by those in charge is to get the men of the three Episcopal parishes of this city and of the other parishes in this district into personal touch with their new bishop and to offer him the opportunity of knowing more intimately the men in this section of his diocese. Caterer Casper Ketterer will provide a delicious course dinner. There will be splendid addresses; one by the bishop; one by Dr. Stiles, rector of the far-famed St. Thomas Church, New York city, and one by Dr. Chorley who is the exceedingly interesting historian of the diocese. Arrangements have been made for seating one hundred guests. The dinner starts at 6:30 o'clock. Tickets may be had at the parish house at that time.

HANS WAGNER.

Akron, Ohio, has been admitted to the International League circuit, replacing Binghamton, according to a report received here. The report adds that Hans Wagner, former veteran shortstop of the Pittsburgh Pirates, will manage the Akron Club. A syndicate of Akron business men are said to have paid \$30,000 to the International League for the Binghamton franchise which recently was forfeited by George W. Johnson.

Lighthouse That Fell.

There have been three or four Eddy stone lighthouses. Henry Winstanley built one that was criticized by engineers as being unsafe. "It will stand the storm," he replied, "and I hope I may be in it when the first and worst gale sweeps down the coast." On the night of the first fierce equinoctial tempest the lighthouse and some workmen went into the lighthouse. Next morning when the people along the shore looked for the lighthouse it was gone. The awful storm had swept everything away and the men had perished.—Boston Post.

Paul Verlaine. Passion, wisdom, creative genius, the power of mystery or color, it has been wisely said, are not to be had by the hour of the mind and can be neither assimilated nor learned. For good and evil—for he was a mixture of evil and good—Verlaine possessed all these qualities. Verlaine is always faithful to himself; to the two sides of himself, and he has thus succeeded in rendering as to one ever has before, the whole home duplex, the eternal conflict of humanity.—Arthur Symonds.

## SOCIETY NOTES

The wedding of Miss Elizabeth F. Barman and George J. Knapp of Fresno, California, will take place at St. Peter's Church tomorrow, Wednesday morning, at 9 o'clock.

On November 1, a farewell surprise party was given to Edmund Longyear at the home of his sister, Mrs. A. J. Didier in Brooklyn, New York. Mr. Longyear was very much surprised when he came in, as he had gone in the afternoon to a show, and on returning home that evening about 7:30 he found the house very prettily decorated and a great many of his old friends there. The evening was spent in playing games, singing and dancing. After which all of the guests assembled in the dining room where the table was arranged with pumpkins and other decorations. After each one had drawn their favor a dainty and sumptuous supper was served. A number of Ulster county people were present. Among those who were present were, Mr. and Mrs. A. J. ## The "Autometric" Carburetor

**YALE**

Made by The Yale & Towne Mfg. Co. STAMFORD CONNECTICUT

How do you like to pull out of tight traffic?

Like this?

—20 ft.—

YOU jam her down, spin the rear wheels, rock the whole machine, and go 20 feet (if you don't stall the motor).

Or, like this?

—20 ft.—

You haul ahead with every ounce of power the machine can carry, but do not spin the wheels, nor stall the engine, nor have to get in any careful toe work on the accelerator. And you get the same 20 feet just as quick.

That's what we call flexibility of control—power in the pinches when you need it. And a smooth even flow of power too. That's the kind of control you get when you equip your car with an "Autometric" Carburetor made by The Yale & Towne Manufacturing Company.

That's the kind of control that eliminates at least 20% of your gas shutoff.

And in addition you get more power, up to 30% more mileage from your gasoline, and engine vibration is reduced to a minimum.

You get three benefits because the "Autometric" Carburetor provides the correct mixture of all speeds for any car. No more fuel is burned than is actually necessary at whatever speed you are traveling—best results at all times.

Step in and we'll arrange to have your own expert men put an "Autometric" Carburetor on your car on approval.

## Friendship.

You must make your own friends. Some men are born with a natural disposition to be friendly. Other men with equal brains are born with natures that do not easily make friends. The one man needs to be careful that he does not make too many friends and the other needs to cultivate the art of making friends. Both men may make shipwreck of life by following the natural bent of their lives to dominate them. Some folks may say a man should make his friends among those he is able to help. That may be all right but as a rule a fellow wants friends who will help themselves. The tendency is to make friends of those whose life appears to us without regard to profit. But the wise man will take stock of the friends he makes and cultivate those who help him to be a better man. He needs the benevolent and men are able to arouse within him. To make friends you must show yourself friendly.

## POST OFFICE FOLK GET AN INCREASE

Postmaster DeWitt Receives Official Notice That Wage Scale Is Increased From \$100 to \$200 a Year—Affects Fifty Here.

Postmaster William C. DeWitt has received an official notification that by the provisions of an act now operative it would be his duty to so arrange the wage scale in his office as to permit of an increase of from \$100 to \$200 a year, according to the present pay of the recipient. It is hardly necessary to call attention to the smiles worn by the fifty post-office employees in Kingston today.

The new wage scale is retroactive, dating from July 1, and is to be paid in the November pay roll. The new scale provides that those who have been receiving under \$1,200 will get \$200 a year more; under \$1,600, \$150, and under \$2,000, \$125. Carriers and clerks now receiving \$1,500 a year will receive \$1,650. Janitors are not included in the increase, nor are any employees who have received \$300 or more increase since last July.
